

In the higher professional study programme Computer Science and Information Technologies can enrol those who:

- a) have passed the Matura examination,
- b) have passed a Vocational Matura examination from any kind of high school programme,
- c) have completed any kind of high school programme of four years duration before 1st June 1995.

If a decision is taken to restrict enrolment, the candidates referred to in Points a), b), and c) will be selected according to the following criteria:

- Overall success at the Matura Exam, Vocational Matura Exam or final exam (60% of points),
- Overall success in the third and fourth year of the Secondary school (40% of points).
