**CRITERIA FOR TRANSFER BETWEEN STUDY PROGRAMS FOR  
THE THIRD CYCLE BOLOGNA STUDY PROGRAM ELECTRICAL  
ENGINEERING**

---

In accordance with the Higher Education Act and the Criteria for Transitions between Study Programs, the transition means the termination of a student's education in the study program in which he/she enrolled and the continuation of education in a new study program in which all or part of the student's obligations already completed in the first study program are recognized as completed obligations of the second study program.

In accordance with the transfer criteria, candidates who completed the following may be admitted to the second year of doctoral (3rd-cycle) program Electrical Engineering:

- A Master's programme (MSc) (adopted prior to 11 June, 2004) – these candidates are awarded 60 ECTS credits,
- An undergraduate programme (adopted prior to 11 June, 2004) and a specialisation programme these candidates are awarded 60 ECTS credits.

Transitions are possible between study programs:

- which, at the end of studies, ensure the acquisition of comparable competence or learning outcomes;
- of which at least half of the obligations under the European Credit Transfer System (ECTS) from the first study program that refer to the compulsory subjects of the second study program can be recognized according to the criteria for recognition of skills acquired before enrolling in the program.

For each candidate, the Commission for Science and Research of the Faculty of Electrical Engineering and Computer Science of the University of Maribor will determine subjects that are recognized in the ECTS credits mentioned above.
